Residential building Lange- gasse

Category: Residential construction

Year: 2026

Type: New building

Brand: RWD Schlatter

Architect: Rosenmund + Rieder Architekten BSA SIA AG

Planner: Rosenmund + Rieder Architekten BSA SIA AG

Site manager: Spinnler Bauleitung GmbH

A modern residential building is being built at Langegasse 39 in Oberwil that impresses with its clear architecture and high-quality materials. The project comprises several bright and generously proportioned residential units that combine contemporary living comfort with sustainable construction. The quiet location in a well-kept residential neighbourhood and the proximity to schools, shopping facilities and public transport make this residential building particularly attractive for families and couples. The well thought-out planning promises a high quality of life and a stylish home for future residents.
