New construction of the Sulgen EKT AG maintenance depot

Category: Special buildings

Year: 2025

Type: New building

Brand: RWD Schlatter

Architect: kit - architects eth sia gmbh

The new EKT AG maintenance depot in Sulgen stands out thanks to its sustainable timber-and-concrete construction, featuring a slender structure and an efficient grid layout: the majority of the load-bearing structure was built using renewable raw materials, and the building is certified to the Minergie A standard.
