## Lindenhof school building

---

Category: Public buildings

Year: 2023

Type: Restoration

Brand: RWD Schlatter

Building promoter: Stadt Wil, Departement Bau, Umwelt und Verkehr

Architect: RLC Architekten AG

Site manager: RLC Architekten AG

---

The outer shell of the school building no longer meets today's requirements. These energy-related weak points are to be remedied as part of the restoration. In addition to the energy-related measures, an elevator will be built in, the classrooms will be renewed, including acoustical and electric (lighting) measures, and a barrier-free toilet facility will be installed. There will also be interventions in the lattice work to make it earthquake-resistant.

---
